COL LEC TION

2024-2025

Simple and Minimalist Edition

INNOVATIVE

Bringing professional functionality and style to your kitchen, these faucets are the ultimate companions for your sink.

HIGH QUALITY

The extra high spout offers plenty of space and is ideal for filling containers. Taps can pivot to provide more room, either partly or entirely, depending on the type of single lever tap chosen.

COMFORT ZONE

What you do at the sink changes all the time, which is why you need different spray types. Sometimes you need to fill a container quickly, while sometimes you'll be washing delicate food. Our kitchen taps provide the perfect spray for every task, and you can switch between them quickly and easily.

Innovative
and high
quality
kitchen
Faucets.

Pull-out function

The pull-out tap extends your working radius and therefore your work space at the sink, which is useful for tasks such as watering plants or filling a coffee pot. Do you want to use the pull-out shower spray or the spout? It's your choice, as this kind of tap allows you to choose either. It also has our intuitive Select technology, which allows you to turn the water on or off at the touch of a button.
