

Promise of
STRENGTH | STYLE | STANDARD

Since 2002, JBSCO has set the standard for quality and innovation in Sinks and Cabinet for kitchens, commercial projects, and healthcare environments. We handle the entire process in-house, from design and development to production, offering a wide range of styles and options. We also offer suitable taps and accessories.

QUALITY CERTIFICATION

Mfg. of Quartz Kitchen Sink & Hand Craft Sink

CABINET SIZE

Certain sinks may not be compatible with specific cabinet dimensions. At **JBSCO**, we offer a diverse selection of sinks, each available in multiple sizes to accommodate various cabinet widths, ranging from 304 mm to over 1143 mm. The cabinet size refers to the space beneath the worktop needed to fit the bowl and its fixtures.

TECHNICAL INFORMATION

JBSCO provides detailed technical drawings for most of our sinks, along with clear installation guidelines. We also offer custom-sized kitchen sink & cabinet

MAINTENANCE TIPS

- For daily upkeep, clean the sink with warm, soapy water.
- To preserve the quality of your stainless steel sink or cabinet, apply **JBSCO** cleaning kit regularly. Use a microfiber cloth to rub it in, then buff it out with a clean, dry cloth once a week.
- Avoid using abrasive cleaners or scrubbing pads, as they can cause visible stains, scratches, or marks.

Excellent Quality
for the kitchen

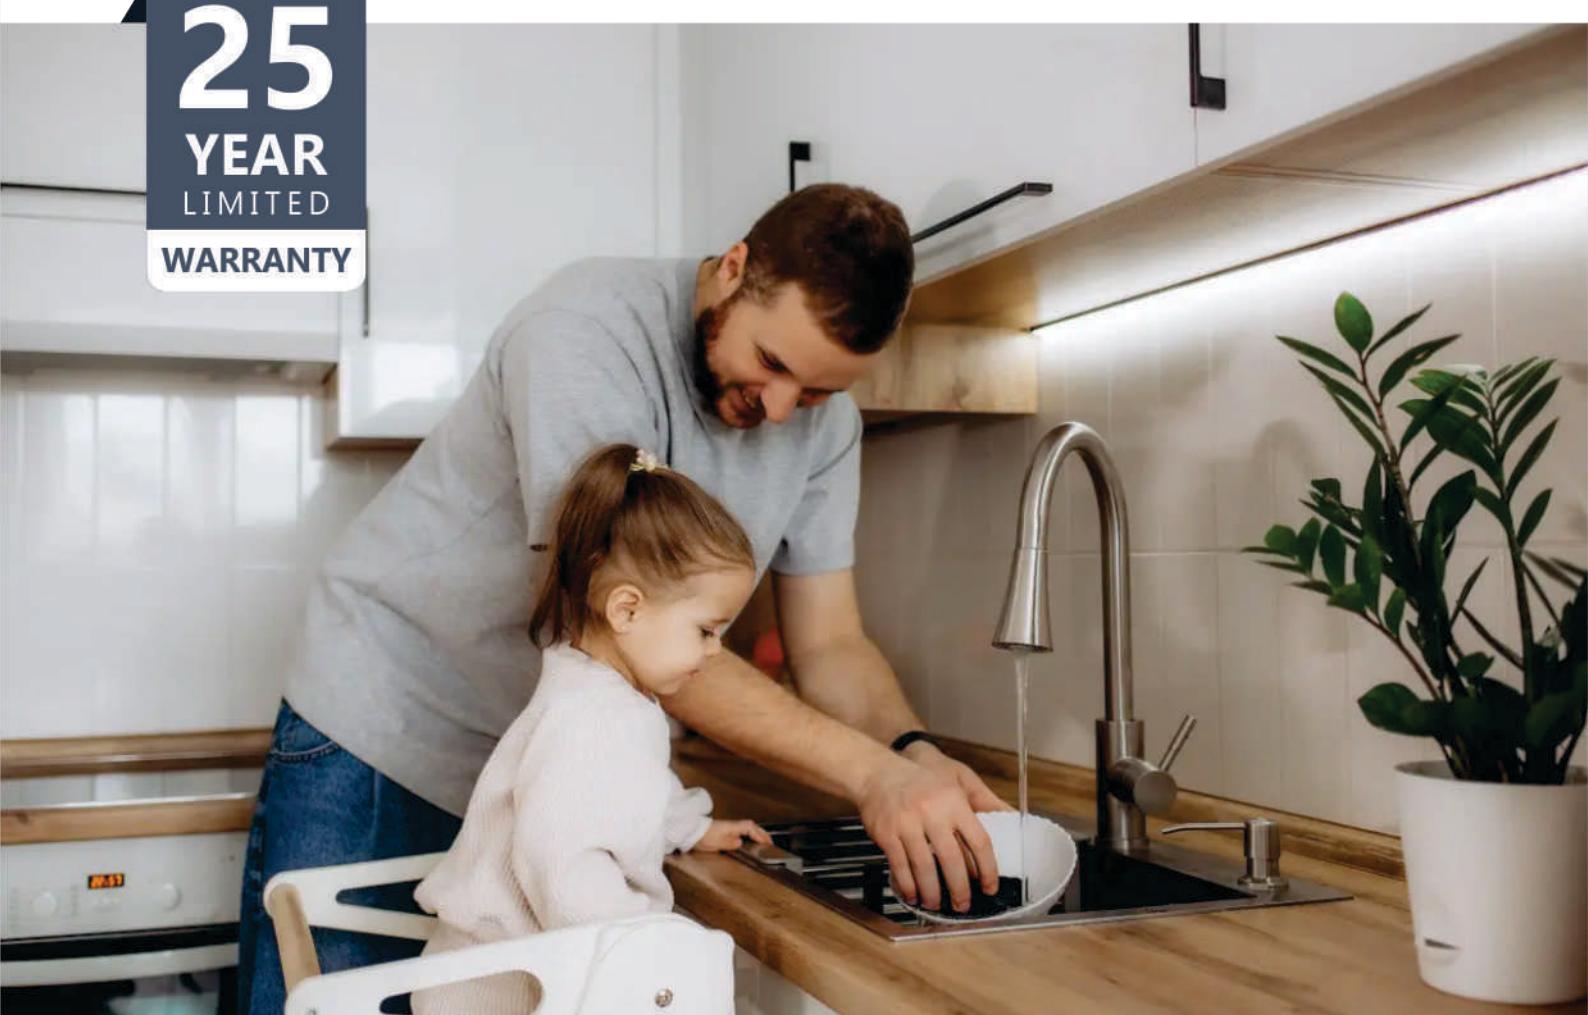

STAINLESS STEEL SINK TECHNOLOGY

As a global leader in sink manufacturing, **JBSCO** provides an exclusive range of products that combine top-tier functionality with innovative design. Our sinks come with a variety of accessories designed for maximum practicality and efficiency.

Exclusive Treatments: To enhance the quality of the steel, improve its shine, and increase durability, **JBSCO** applies specialized brushing and polishing techniques. These treatments, used on both sinks and hobs, also elevate the overall aesthetic appeal of each product.

**25

COMMITMENT TO QUALITY AND INNOVATION

Years of research and development have enabled **JBSCO** to ensure the use of top-grade raw materials, resulting in exceptional finished products that excel in:

- Design and functionality
- Ease of use and safety
- Water and energy efficiency, with a focus on environmental sustainability

Premium Stainless Steel: **JBSCO**'s collection is crafted from AISI 304 18/8 stainless steel, known for its exceptional resistance to rust, corrosion, and the effects of acids and chemicals.

Versatile Solutions: To meet diverse installation needs, **JBSCO** offers a range of sink designs, including built-in, under-mount, and top-flush options, seamlessly blending aesthetics with practicality.

GEMSTONE

WHERE BEING DIFFERENT MATTERS

Our stunning range of PVD-coated color sinks is as vibrant and diverse as the iconic **GEMSTONE**. Available in three striking shades, this collection reflects the unique character and charm of its namesake.

LUXURIOUS **OPEL**

THE OPEL : STYLISH AND FUNCTIONAL

The OPEL combines a bold, modern look with sophisticated design elements, including a square basket plug, subtle overflow, stylish drainer, and a seamless 10 mm outer radius. Its spacious and deep bowl accommodates items too large for the dishwasher, while the smooth, clean corners ensure effortless maintenance.

MADE FOR YOU

MATERIAL **- QUARTZ -**

No one understands quartz like we do—it's been our specialty for over **22+ years**. In our composite sinks, quartz makes up about **80%** of the raw material, proving to be the most robust element of granite. This is why our sinks are so remarkably durable. We blend quartz with high-grade acrylic resin using a specialized, computer-controlled casting process, resulting in a hardened composite material that's highly resistant to scratches, dents, stains, heat, and cracks. That's why our composite quartz sinks are built to last.

LEADING THE WAY

PRODUCT BENEFITS

JBSCO products lead the market—and for good reason. Our engineering is innovative, our designs consistently set trends, and our dedication to our customers remains steadfast. We use only premium raw materials paired with cutting-edge technology, ensuring that every product meets international standards and essential safety regulations. Whether you choose a quartz or stainless steel sink, you can be confident that your sink will be:

hardwearing

food safe

easy to clean

colour-fast

Durability/Design & Interaction / Hygiene & cleanliness

Durability:

-75% - 80% natural quartz

The 4th hardest material in the world after Topaz, Ruby and Diamond
Comes from a high quality quarry at the Black Forest in Germany

-20 - 25% acrylic resin

Manufactured in house

Makes the colours bright with its glass look and feel.

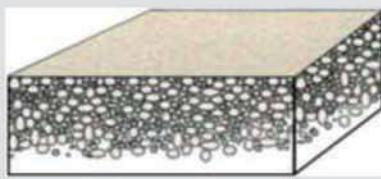

Colour pigment is 'merged' with the quartz in a 600°C kiln (rotating oven)

The pigment is chemically bonded to individual quartz particles to give accurate colour matching and consistency. "MADE IN GERMANY"

- The colours never fade from the material
- The colours cannot be scratched away from the surface

ADVANTAGES OF GRANITE SINK :

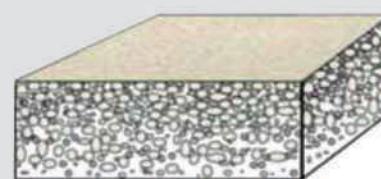

JBSCO SINK is a Hard Face Acrylic Granite, this means that the working surface of the sink has a very high density of quartz particles.

JBSCO SINK CORE SECTION

Heat Resistant upto : 280°C

Other popular acrylic granite sinks use the ici methodology, which means that the quartz is spread more evenly throughout the material.

Heat Resistant upto : 190°C

Other Popular Brand Core Section

High density of particles means the substrate is hard and is highly resistant to scratches, abrasion and chemicals.

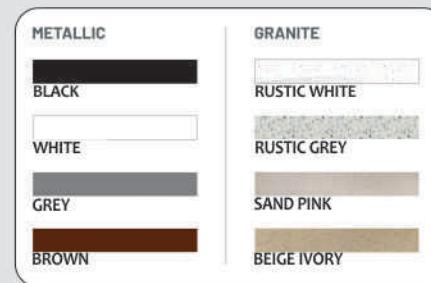

Even distribution of particles means the substrate is soft and can be more easily damaged by scratches, abrasion or chemicals.

DESIGN & INTERACTION:

Neutral COLOUR Options :

- Pallet to match Interiors layouts of all types
- Higher aesthetic appeal.

Decorative shape with clear Geometries.

It distinguishes itself through the drainer pattern and the stainless steel coupler.
The minimal radius of the corners gives contemporary feel to the sink while ensuring ease of cleaning after use.

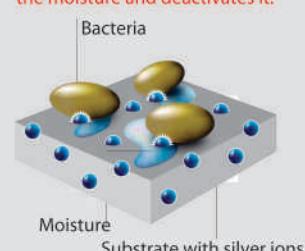

Thanks to the large bowl, it is possible to accommodate a larger number of dirty vessels and dishes.

HYGIENE & CLEANLINESS:

Germ guard Coated Surface

- The silver ions are homogeneously distributed throughout the matrix
- These silver ions ensure that sink surface is free of microbial contamination at all times.

The silver ion locates the bacteria via the moisture and deactivates it.
